## **CAMS Customers Continue to Upgrade to CAMS Enterprise™**

**May 9, 2008 – St. Louis, MO.** Florida College, Trinity Christian College, and College of the Atlantic follow Three Rivers Systems' customer-centric upgrade program and proven technology track – the same upgrade program and technology track that has made it easy for dozens of other CAMS customers upgrade to the latest technology quickly and efficiently.

Three Rivers Systems customer-centric upgrade program helps CAMS customers get the most out of their original CAMS software investment by applying their original software investment towards the purchase of CAMS Enterprise™. No other upgrade program in the industry provides as much ROI, and is a result of Three Rivers Systems' dedication to its customers. The all-encompassing program also makes it easy for CAMS customers to upgrade by offering:

- ✓ A one time, flat fee for the CAMS Enterprise software (including all its Modules and options) implementation, data migration, and training.
- ✓ Two complete data migrations.
- ✓ Transfer of one's current system settings.
- ✓ Comprehensive, on-site training for IT staff and system users.

Recent CAMS Enterprise™ upgrade customers like Trinity Christian College, Florida College, and College of the Atlantic, also gained a familiar solution in the sense that it did not sacrifice existing CAMS functionality and usability. Three Rivers Systems has been diligent over the years to deliver next generation solutions that do not require existing end-users to completely relearn new technologies as they become available. CAMS customers who upgrade to CAMS Enterprise™ also benefit from:

- ✓ Improved Degree Audit functionality.
- ✓ A complete Financial Aid package with the ability to easily set up formulas.
- ✓ Enhanced Development module, facilitating online contributions.
- ✓ Built-in Course Management, allowing one's institution to publish courses with a single click and doing so without the burden of maintaining a separate system.
- ✓ Robust reporting, giving one the power to generate the reports they need them when they need them.

***"We are already 75% of the way through the Fall registration process using the online registration functionality of the Student Portal, and it is going very well. Most everyone appreciates the flexibility afforded by it."***

-Ron Hansum, Trinity Christian College, Director of Computer Software

Features like the Student Portal are a result of Three Rivers Systems' proven technology track, which focuses on innovating and delivering solutions to customers that keep them effective and efficient in

managing their institution. CAMS Enterprise™, the succeeding product to CAMS Windows and Three Rivers Systems' 3<sup>rd</sup> generation product, also does this by providing:

- ✓ An all encompassing, web-based solution using an advanced Internet architecture.
- ✓ Added security, allowing one's institution to lock down data with role-based and secure socket layer (SSL) security.
- ✓ Microsoft SQL 2005 Database, enhancing storage and access of data.

### **About CAMS Enterprise™**

CAMS Enterprise™ is the totally integrated and 100% web-based Academic ERP solution for Higher Education institutions. The solution helps institutions of all sizes and types communicate with their Students through Portals, and manage the entire student lifecycle – Admissions, Registration, Student Records, Course Management, Financial Aid, Fiscal Management, HR/Payroll, Development, and Alumni Relations. Built with pure Microsoft technologies, CAMS Enterprise™ ensures compatibility, efficient use of resources, scalability, and complete automation.

### **About Three Rivers Systems, Inc. (<http://www.threeriverssystems.com>)**

Three Rivers Systems, Inc. has been creating and delivering innovative administrative solutions exclusively to higher education since 1985. Its Comprehensive Academic Management System (CAMS) and business methodology have been purposely and carefully crafted to eliminate the service and product limitations commonly found throughout the Academic Enterprise Resource Planning (ERP) industry. From its headquarters in St. Louis, MO, Three Rivers Systems works in tandem with its hundreds of higher education customers from around the world, supporting their efforts to help them be more effective and efficient in managing their institution.
