

Sotheby's Institute of Art Selects CAMS Enterprise Academic ERP For Global Growth

A Truly Integrated, Multi-campus, Multi-currency Higher Education Administrative Solution

ST. LOUIS, MO. October 6, 2009 – Three Rivers Systems, Inc., a worldwide innovator in software for the higher education community, announced the successful implementation of its CAMS® Enterprise software for Sotheby's Institute of Art. With an on-time and on-budget implementation by Three Rivers Systems, Inc., the CAMS Enterprise system was live six months after the customer placed its order.

With campuses in London, New York and now Singapore, Sotheby's Institute of Art had a unique set of requirements to address when it came to upgrading its academic management software. The challenge was to find a full-featured system that could work with three different currencies and date schemes, while operating 24X7 around the globe. Naturally, Sotheby's also wanted a system up and running without delay. Brian Goss, Vice-President of Marketing Sotheby's Institute of Art noted, *"We needed technology to support the growth of our multi-campus, global organization. After careful exploration, Three Rivers Systems had the kind of flexible, web-based system we were looking for."*

We needed technology to support the growth of our multi-campus, global organization. After careful exploration, Three Rivers Systems had the kind of flexible, web-based system we were looking for.

Brian Goss
Vice-President of Marketing

With CAMS Enterprise now in place, Sotheby's Institute of Art is positioned for future growth worldwide without the headaches of pulling together third-party products. *"Customers do not want to be burdened by manually integrating multiple systems for essential functions like Admissions, Registration, Course Management, and Billing"* said Amir Tajkarimi, Three Rivers' President. *"CAMS is the only truly integrated solution because the same code and data is used throughout the system by all functions. Sotheby's immediately saw the value of our fully integrated CAMS solution."*

About Sotheby's Institute of Art

Sotheby's Institute of Art, with campuses in London, New York and Singapore, is acknowledged as one of the premier providers of advanced object-based art education, whose graduates combine passion for the visual arts with scholarship and market sophistication in order to flourish as leaders in the international art world.

About CAMS Enterprise

Developed from the ground up with Microsoft Internet technologies, CAMS Enterprise, is a highly scalable, comprehensive academic management system that is quick to implement and easy to use. CAMS Enterprise consolidates multiple stand-alone systems including admissions, student information, financial aid, fiscal management with HR and payroll, fund-raising, alumni relations, portals, document management, course management and more into one solution that ensures administrators, staff, faculty and students all work with the most recent and most accurate information. The course management system built in to the portals brings together the administrative and academic sides of campus to make CAMS Enterprise the only totally Web-based, completely integrated solution for managing the entire student lifecycle.

Three Rivers Systems, Inc., the developer and service provider for CAMS, is headquartered in St. Louis, Missouri, and has been delivering innovative technology-driven solutions to the educational community for the past 25 years. The company has large established client base throughout the U.S., and a rapidly growing international presence with clients in North America, South America, Europe, the Middle East, Africa, and Asia.
